ADVANCE SEED NEWS NO. 378

Industry throughout the country will experience a great re-armament boom and as a lot of the re-armament money will be spent on the navy, the East should benefit especially.

The great suburban development in all American cities continues at full speed and more lawns are developed every year, meaning more grass seed business. During this week we find a more friendly attitude in the buyers' hearts toward Blue Grass and have sold Blue Grass at our prices to some people we never thought we would be able to sell so we know we are in line. We personally look forward to some advance in Blue Grass before long, that is after all the seed has been bought from the producers, which should not take so very long as already about 75% of the seed has been purchased by the Blue Grass jobbers.

We can make you to-day the following offers:-

Kentucky Blue Grass, 85% purity, 80% or better germ. at \$14.75  
90% " 85% Germ. at 16.00  
per hundred pounds, sacks included, freight paid New York basis carload, subject to market changes and our further confirmation.

On Red Top we can offer 90% purity, 90% germination at \$10.25 per hundred pounds, sacks extra, freight paid New York basis carload.

98% purity, 90% germination or better, at \$12.00 per hundred pounds.

Red Clover is still an uncertain factor as long as it is in the bag and it is hard to know just what it will be worth. We are offering some best quality Red Clover to-day for \$12.50 per hundred pounds, sacks extra F.O.B. Western point.

It is too early to quote on Alfalfa and Alsike. Nothing has been harvested and no prices established.

On Timothy we are asking for 99.50% purity, 90% or better germination \$4.70 per hundred pounds, sacks extra, delivered New York basis carload.

Now Crop CHEWINGS FESCUE

98/94 August delivery price about \$30.00 per hundred lbs.

POA TRIVIALIS

A few tons still available on spot in New York
